

Seth and Chloe

Hello!

Thank you for taking the time to look at our profile and learn more about us. **We greatly admire your strength in making the decision to place your child for adoption.** We cannot even begin to understand how much thought and time you have put into making this decision.

Our hope is that when looking through our profile, you can learn about our family, our values, and our purpose in life. **We hope that you can see the love we have for our daughter Sophia, and the love we will have for all of our children regardless of if they are our birthchild or adopted child. We would describe our family as happy, loving, and creative.**

If after your review, you chose to move forward with us, we want to say thank you from the bottom of our hearts. It is extremely important to us that we honor your decision. Our child will know your strength and how it incorporates into their story. **We are open to any gender, race, or ethnicity.**

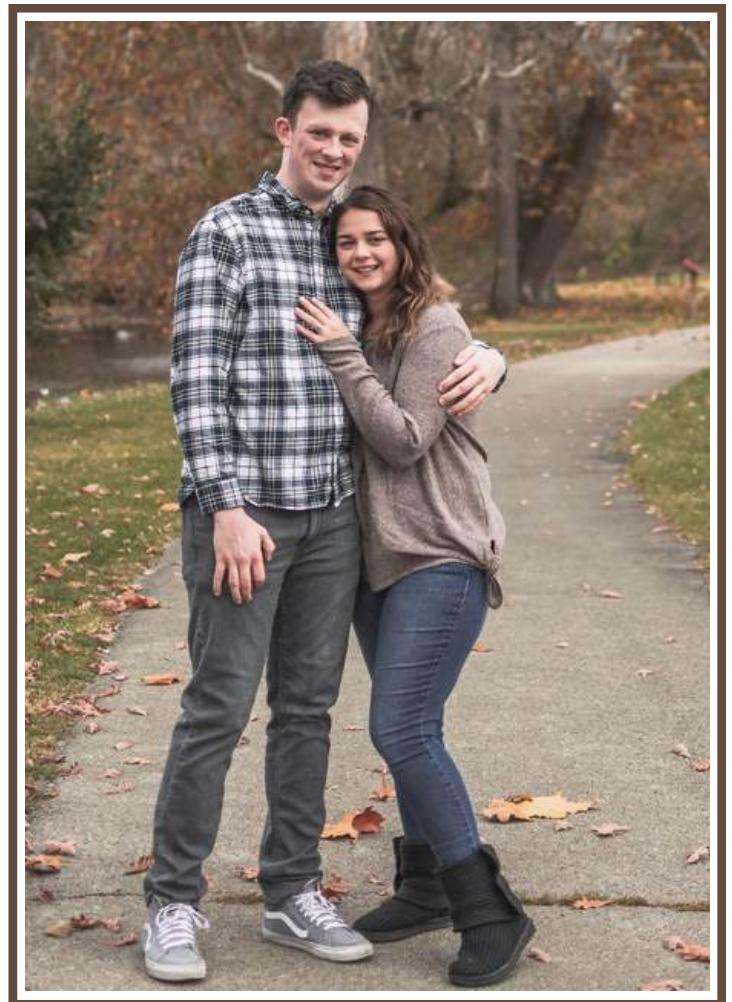

Why Adoption?

We have been together for **over 11 years** and have continuously dreamed of growing our family. We fell in love young and have grown up together. **We welcomed our biological daughter, Sophia in 2024.**

We have always talked about the various ways we want to build a family, including adoption. After Chloe suffered from miscarriages and medical complications throughout pregnancy, it took minimal thought that we will welcome our second child through adoption. **Regardless of medical history, adoption was always a consideration us. We are so excited to move forward to grow our family through adoption!**

Our main values are acceptance, kindness, and grace. We plan to instill these virtues into our children's lives.

All of our children will be equally and unconditionally loved, accepted, and safe in our family and community no matter their choices or who they are.
