

AMANDA & DAVID

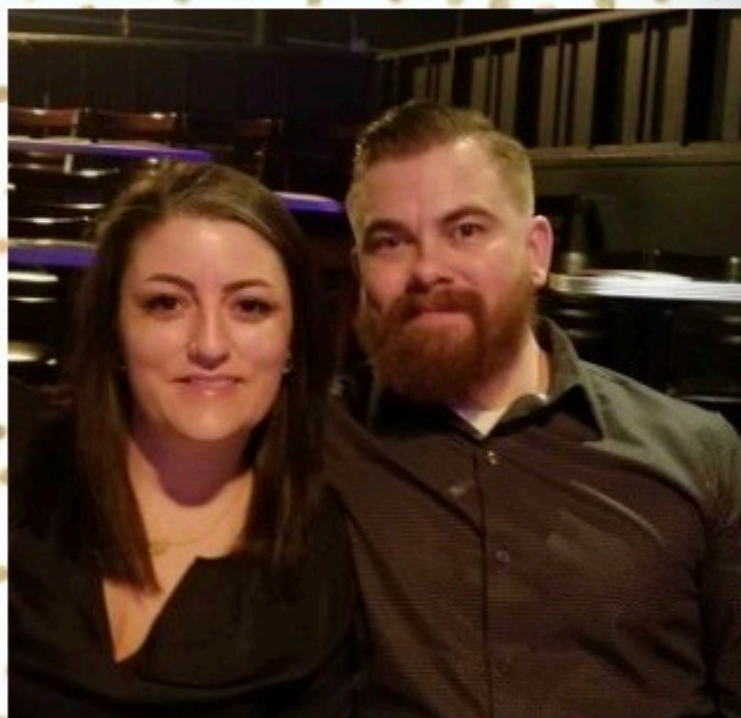

ADOPTION PROFILE BOOK

DEAR EXPECTANT PARENTS,

Thank you for taking the time to learn about us. We are so excited to be welcoming a child into our family! We hope this book will give you a glimpse into our lives and help you in making your decision. We look forward to meeting you!

Love and gratitude,
David & Amanda

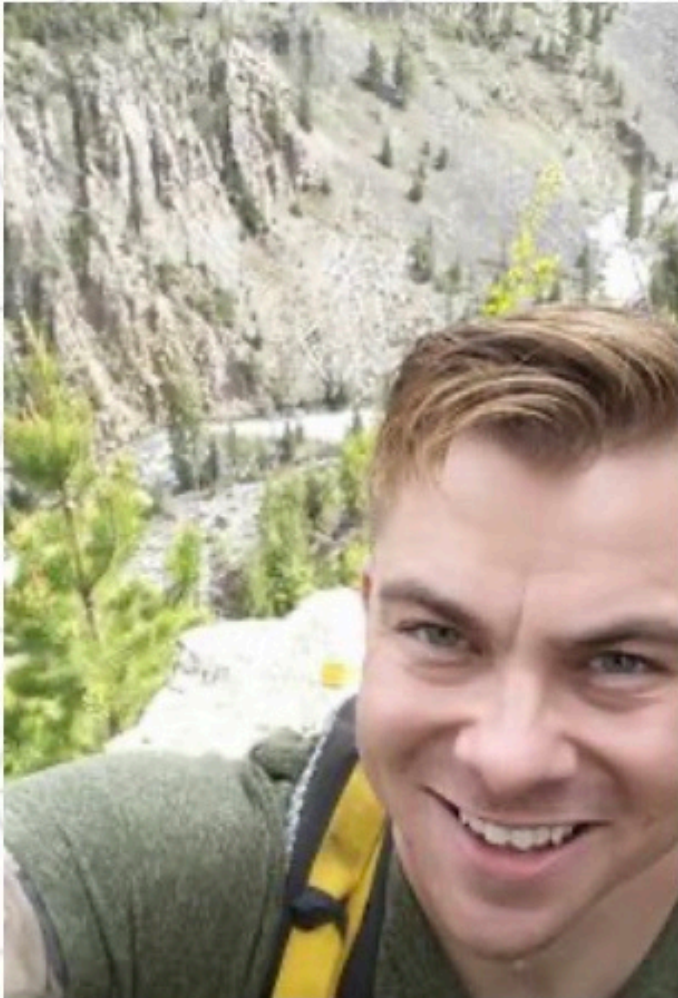

about us

We met on the school bus and became friends our Freshman year of high school. After high school we lost touch but thankfully a few years later we reconnected through mutual friends. We now have been married for 12 years and have 3 wonderful kids together. Our oldest, Trinity is not biologically David's child. He has been her father since she was 3 years old, and adopted her at age 11. They share an amazing bond that cannot be broken. Our middle child is Jacie. She was born with a rare genetic disorder called Nemaline Rod Myopathy. She is an amazing little girl full of personality. Jack is our youngest child, he is a happy and healthy little boy!

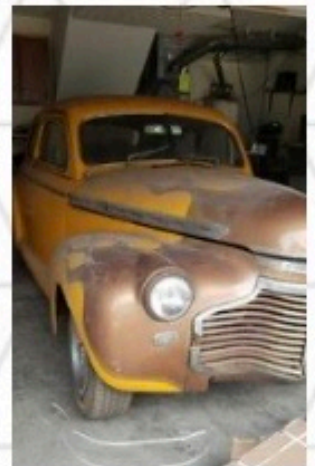

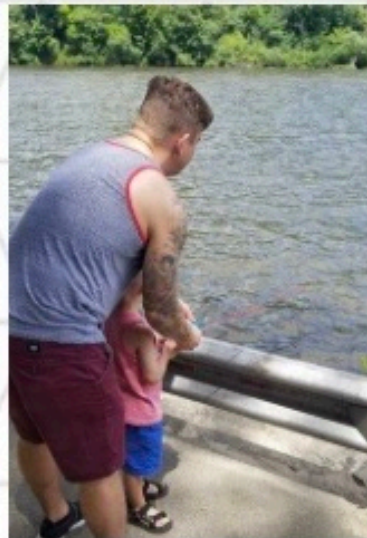

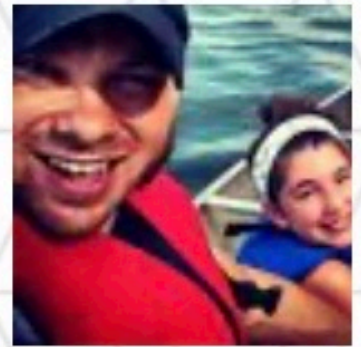

We feel extremely fortunate to have the beautiful family we have thus far, but we both feel we still have a lot more love to give. A big family is something we have always wanted. However, due to the high probability of genetically passing N. R. M. to another child we have decided adoption was the best fit for expanding our family. We are all so very excited to add to our growing brood!

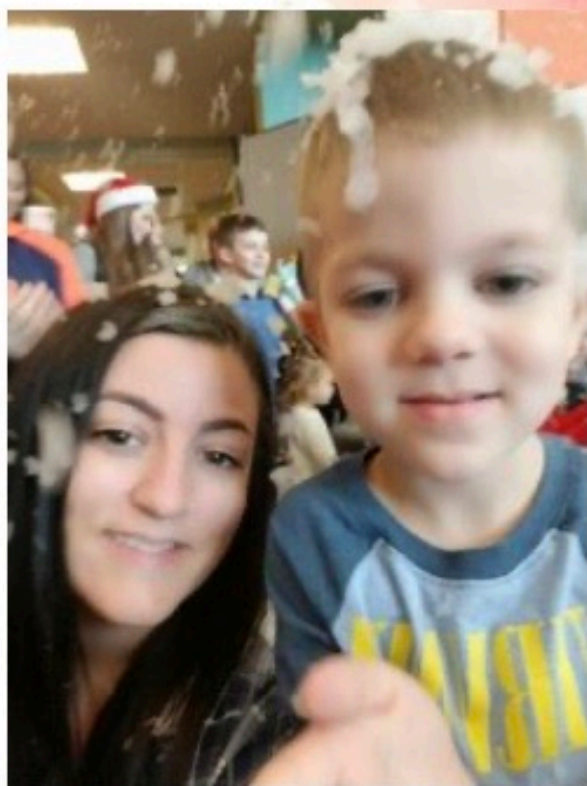

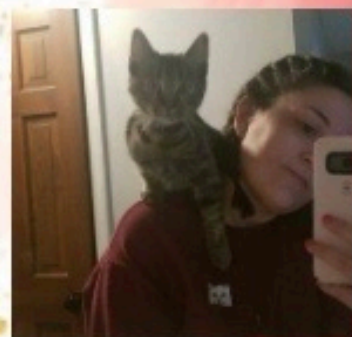

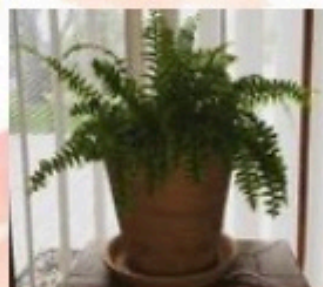

a little about

DAVID

David grew up directly west of downtown Indianapolis. His hobbies are working on cars, camping, splitting fire wood, and giving back to the community. His childhood was not typical as he dealt with abuse, abandonment, and poverty. A family adopted him as their own and showed him how a family loves and supports each other. That life changing experience made him want to be the parent he needed in his own life. Growing up without necessities drove David to work hard, and that ethic has allowed him to grow in his career, improve his family's living conditions, David's family fuels his spirit, and the opportunity to grow his family is so exciting it seems unreal!

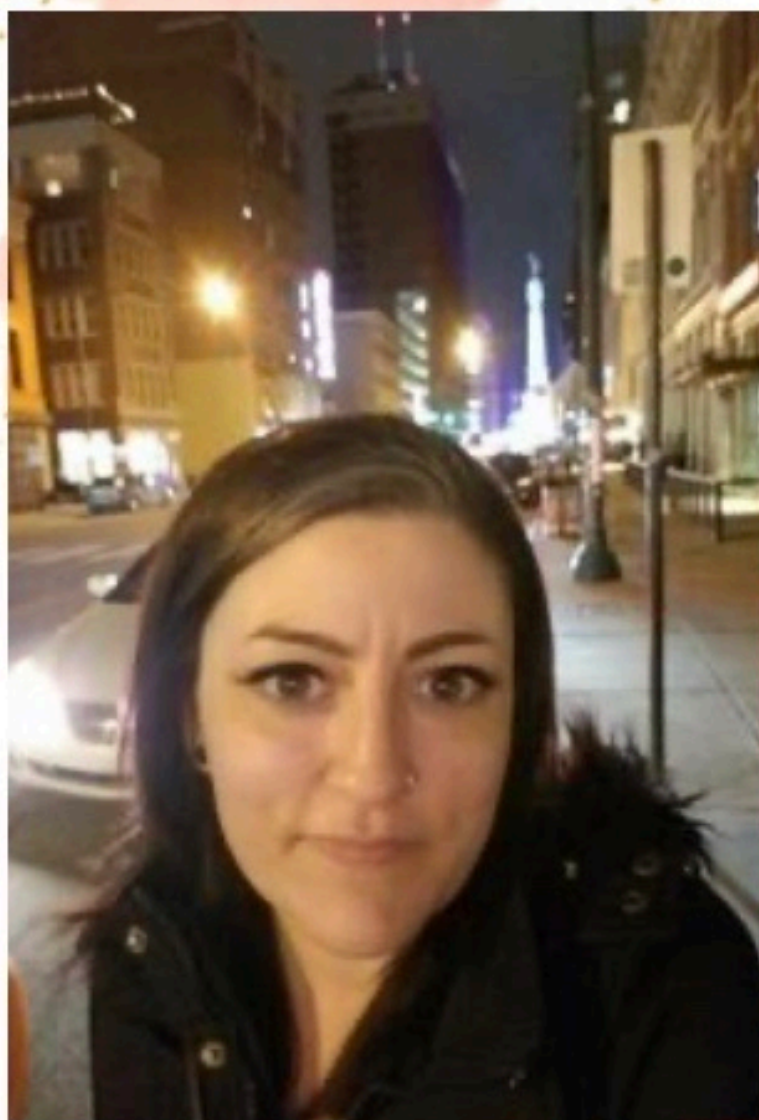

a little about

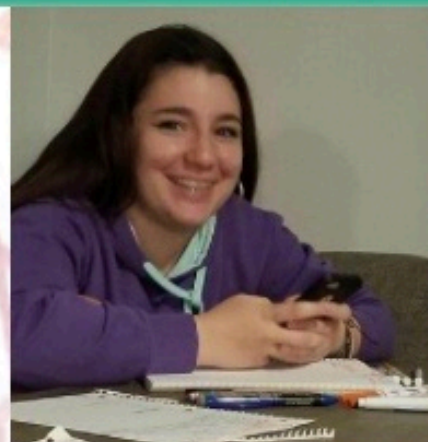

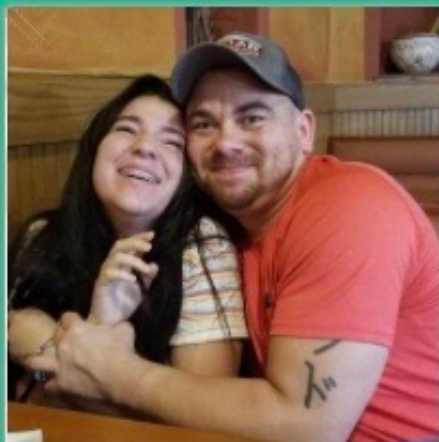

AMANDA

I was born in Indiana, but grew up in Missouri and later returned to Indiana. Growing up, we were a low income family. I think that has helped me appreciate my life now.

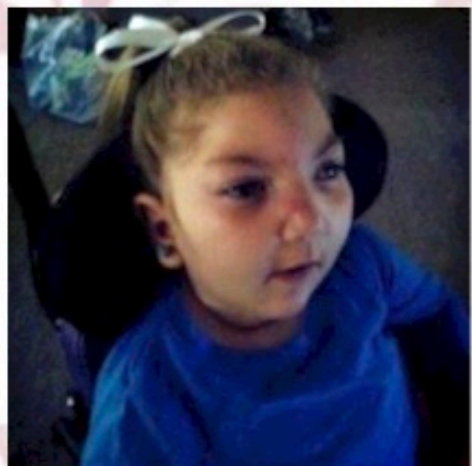

I became pregnant at the age of 16 and was a single mom until David and I married in 2008. I've been a stay at home mom for 12 years caring for our special needs daughter Jacie.

I love to travel, tend to my plants, try new recipes, and play video games, and the occasionally a board puzzle. I like to make every holiday special. Especially Halloween, Christmas and BIRTHDAYS! I do not have a great voice though I love to sing along with almost every song on the radio. I talk to my Grandma every day, she is the best! I feel I was made to be a mother and I am really excited to grow our family.

Trinity is 16. She is close to getting her braces off and learning to drive. She wants to be a special education teacher. She is just like me, even if she doesn't want to admit it. She's always been a huge help with her siblings. She loves sleepovers, taco bell, and youtube.

Jacie is 11 years old. She is the sweetest lil lady. Her wheelchair doesn't hold her back from exploring the world. She LOVES floating in the pool and being outside near nature. Hey birthday is in October so it is always a costume party!

Jack is 5. He will start Kindergarten this year and cannot wait to make a bunch of new friends. He loves minecraft, chocolate, and pulling pranks on all of us. He recently learned to swing without needing a push.
