GUNNAR

Gunnar is a *super nerd*, software developer, and child at heart. Computers, games, dancing, the outdoors, and spending time with his best buddy Michaela are his thing. You'll see lots of pictures where Gunnar strikes a pose or pretends to be cross eyed. *It's just his style.*

Michaela is so much *fun*, she is a creator from graphic design to crochet she is always making something. She cannot wait to move onto the next challenge of *building a family*. She recently got a jeep and dreams of exploring the world with Gunnar and a child.
